

(yet another amazing collaboration with Mieke Gerritzen, available through Droog Design, who organized this project)

[Beware of software vest](#)

Designer: Mieke Gerritzen with text by Geert Lovink

Material: polyester safety vest + transfer print

Lot: #2914 (50 safety vests)

These vests warn the wearer of an environment increasingly composed of information. The danger in a media-centric environment is a failure to distinguish fact from fiction, objects from media, software from culture.
